

Graduate Immunology (Fall of 2021)

Teaching Faculty: Akshaya Meher, Brandon Garcia, Michelle Ratliff, and Mark Mannie

Enrolled Students: Denise, Hoda, Melissa, Ryan, and Sara (members of your lab or others are free to sit-in and contribute to the conversation, at your discretion).

Central Teaching Goal: Familiarize students with how to interpret research articles from the scientific literature.

Teaching Format: A Journal Club format is considered optimal. The primary teaching faculty member will assign a paper or papers for general discussion for each session, at least one week in advance of each session. The lead faculty member can decide the modus operandi for each session (round robin presentation of figures or have a particular student lead for a particular paper).

Teaching Blocks: The faculty member should consider a thematic linkage so that the series of papers covered within the scope of a given teaching block may have a higher-order theme. The faculty member may consider a theme consistent with the faculty member's existing or emerging interests/ expertise.

Grading: Grading will be based on faculty assessments of student preparation and participation. If a faculty member wants a more formal assessment tool (e.g., written tests, oral exams, etc.), the faculty member has the freedom of operation to use more formal methods of assessment.

Current objective: The following schedule represents the current teaching schedule.

Scheduled Meeting Times						
Type	Time	Days	Where	Date Range	Schedule Type	Instructors
Regular Instruction	9:00 am - 11:00 am	TF	Biotech Conference Room	Aug 23, 2021 - Dec 17, 2021	Lecture	Mark D Mannie (P)

Advanced Immunology - 86247 - MCBI 7450 - 001

Associated Term: Fall 2021

Registration Dates: Mar 26, 2021 to Aug 27, 2021

Levels: Professional (Doctorate/CAS)

Lecture Schedule Type

Face to Face Instructional Method

4.000 Credits
